~Please continue on next page for online information~

## Adapting to Online Format

Please use the following check list as part of your registration form. We want to make sure that we are maintaining our standards of interactive hands-on training, and that will require some additional preparation on your part. We are making many adaptations here to keep our training personally meaningful and to honor the depth of work that is activated when our child and adult patients begin using images in their healing process.

Please check each of these if completed:

- I have reserved my training space by making sure there is an online space available on the dates I am requesting. Email: [sandtray@comcast.net](mailto:sandtray@comcast.net) Telephone: 505-720-1177
- I have read the "Equipment Requirements, and I am able to meet all the criteria for a setup at my location.
- I am willing to reserve the date listed on the schedule as a "make-up" day in the unlikely event that internet transmission fails during the normal hours of the training.
- I agree by my signature to keep confidential any case material or any processing of my colleagues during online training: \_\_\_\_\_ (please sign).
- I will delete any photographic or text information that is shared with me by colleagues during the interactive processing that we will be doing in this online training.
- Telephone number I am willing to share on group contact list: \_\_\_\_\_
- Email I am willing to share on group contact list: \_\_\_\_\_
- I agree not to use contact information of other participants for commercial use before, during or after the workshop.

NOTE: We are delaying any "live" classroom scheduling until there is a vaccine and/or a good treatment for COVID-19. We truly regret disappointing participants who were counting on the "live" interactions that we enjoy so much here in Corrales when we come together for training. Also, we are doing our best to stay as current as we can with scheduling. We have had to delay some of the topic workshops, and we are still thinking through the issues associated with transitioning to online work for Levels 5 (Group), Level 7 (Grief & Trauma), and Level 10 (Capstone). These 3 workshops involve numerous hands-on activities using creative materials, or they rest on the depth of relational processing that seems to be more difficult online. So far, we have received positive feedback for the online workshops (including the online partnering) that we completed in May and June. We are staying open to creative solutions.
