

Program Title (Core In-Person)

Sandtray Play Therapy: Level 10 – Capstone – Integrating All the Levels of Sandtray Therapy (24 CEs) (In-Person)

Description

The intention for this final workshop of the core curriculum is to create a culminating and integrating experience that will serve both as a completion of a skill set and an opening to a deeper level of practice. It draws from all the previous levels of training and from each practitioner’s expertise to refine and integrate the basic knowledge and skills of sand tray clinical practice. Participants will explore clinical case material using the science of interpersonal neurobiology, the knowledge of symbolic language, and clinical experience. They also will have opportunities to demonstrate their clinical skills and to provide effective feedback to colleagues for the purpose of ongoing skill development.
