

Program Title (Core In-Person)

**Sandtray Play Therapy: Level 1 - Basic Tools and Methods
In-Person**

Description

This two-day workshop introduces the basic tools and methods of sandtray play therapy for both children and adults. Participants will explore various elements of the sandtray process in the context of clinical applications for treating trauma, depression, anxiety, and other issues. This training interweaves didactic discussions with hands-on exercises using miniature figurines and sandtrays. The purpose of the exercises is to demonstrate how relational play may be used as a neural exercise to address the stress that arises in the nervous system during traumatic or other problematic experiences. From these exercises, workshop participants will explore and discuss how sandtray play helps to develop flexibility in the nervous system supporting a more joyful and fulfilled life. Therapists will have opportunities to practice and refine basic skills and to ask questions in an online interactive small group setting.

Co-Sponsor Changes for Psychologists: We want to sincerely thank Risë VanFleet for being our co-sponsor for many years to cover CEs for psychologists. Recently she informed us that she will be focusing her work on her Filial Therapy and Animal Assisted Play Therapy®, and in so doing, she will no longer continue offering co-sponsorships. I have taken one of her Filial Therapy classes and read her book, *Animal Assisted Play Therapy*. I can enthusiastically recommend both, and I believe her work in both areas has contributed greatly to the field of play therapy. I wish her well in all her future endeavors. Thank you, Risë.

Searching for a Co-Sponsor: We will welcome any suggestions if you know someone who would be willing to co-sponsor our trainings for psychologists. Please contact us.
