

## Program Title (Core In-Person)

# Sandtray Play Therapy: Level 7 – Grief and Trauma (24 CEs)

## In-Person

### Description

Through experiential exercises and didactic methods, participants in this 4-day workshop will have opportunities to use art-making activities and sandtray building exercises to explore how grief and trauma are processed in the brain, mind, and body. Using both art and sand images, participants will engage in partner practice to learn how to stay regulated in their own nervous systems while holding the powerful nonverbal images that emerge from clients during play therapy activities. The overall goal for this workshop is to develop an appreciation for the complicated relational work that evolves between therapist and client while healing grief and trauma using play therapy and the expressive arts.

**Co-Sponsor Changes for Psychologists:** We want to sincerely thank Risë VanFleet for being our co-sponsor for many years to cover CEs for psychologists. Recently she informed us that she will be focusing her work on her Filial Therapy and Animal Assisted Play Therapy®, and in so doing, she will no longer continue offering co-sponsorships. I have taken one of her Filial Therapy classes and read her book, *Animal Assisted Play Therapy*. I can enthusiastically recommend both, and I believe her work in both areas has contributed greatly to the field of play therapy. I wish her well in all her future endeavors. Thank you, Risë.
